

Grigore Any-Mary Ștefania

Frontend Developer | UI/UX Enthusiast

Bucharest, RO | +40 763 121 100 | stefaniagrigore91@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend developer with hands-on experience gained through personal projects, web applications, and a personal portfolio website. Strong foundation in HTML, CSS, JavaScript, PHP, TypeScript, React and WordPress, complemented by basic SQL knowledge and version control using Git/GitHub.

TECHNICAL SKILLS

- **Frontend & UI Architecture:** JavaScript (ES6+), TypeScript (Basic), React (Components, Hooks, State Management), HTML5, CSS3 (Flexbox, Grid, Responsive Design), SCSS, Bootstrap, BEM Methodology.
- **Backend & Database:** PHP (Medium-complexity code), MySQL, SQL (Basic queries: SELECT, INSERT, UPDATE, DELETE).
- **CMS, Tools & Deployment:** Git, GitHub, Vite, Netlify, WordPress (Theme Customization), Eleventy (11ty).
- **Design Tools:** Adobe Photoshop, Figma (basic to intermediate).

EXPERIENCE & PROJECTS

Freelance Web Developer

- Developed a custom statistics web application for a private client, transforming complex data into an intuitive, user-friendly interface.
- Managed the end-to-end project lifecycle: gathered technical requirements, designed the UI/UX, and delivered the functional application within the agreed timeframe.

Frontend Developer | Independent Projects - *Present*

- Architected and developed a diverse portfolio of interactive web applications—including logic games, task managers, and utility tools—leveraging React, TypeScript, and state management.
- Utilized Git and GitHub for rigorous version control across all projects, maintaining clean code history and structured repositories.
- Solved technical issues independently using official documentation, debugging tools, and best practices.

Key Project Showcase: Personal Portfolio Website

- Designed and developed a modern, single-page portfolio to showcase frontend projects using semantic HTML5, Vanilla JavaScript, and modular CSS following the BEM methodology.
- Architected a fully responsive, mobile-first layout utilizing CSS Flexbox, CSS Grid, and fluid typography (clamp()) for a seamless cross-device experience.
- Engineered interactive UI components, including custom accordion and sticky navigation, leveraging optimized JavaScript event delegation.
- Maximized web performance by compressing assets into WebP formats and configured automated CI/CD deployment pipelines via Netlify.

RELEVANT EXPERIENCE

Personal Projects & Practice-Based Experience *Freelance / Independent Developer*

- Built and maintained multiple web projects for learning and portfolio purposes.
- Utilized Git/GitHub for version control across all projects to maintain code history.
- Solved technical issues independently using documentation and debugging tools.
- Consistently met self-imposed deadlines and project timelines to simulate a professional environment.

EDUCATION & CERTIFICATIONS

- **Digital Nation - Generatia Tech** – Web Developer Explorer (2024 - 2025)
- **freeCodeCamp** – Responsive Web Design (2024)
- **Udemy** – Web Development Bootcamp (2023)

- **GoIT** – Web Development Marathon (2023)

SOFT SKILLS & LANGUAGES

Skills: Problem-solving and analytical reasoning | Time management | Adaptability and continuous learning | Team collaboration and clear communication

Languages: **Romanian** (Native) | **English** (Upper-Intermediate / B2)
